FOR IMMEDIATE RELEASE

ARS Business Solutions, LLC partners with Management One® to maximize client profits

Upload utility now available from the ARS Point-of-Sale and Inventory Management Software directly to Management One® for advanced retail analysis and planning.

Sauk Rapids, MN (October 28, 2010) - ARS Business Solutions, LLC announced a partnership with Management One®, a premier retail consulting services company that helps small- to mid-sized retailers operate vastly more profitable retail stores.

With this partnership, ARS has developed an advanced utility that electronically transmits inventory and sales data from the ARS Point-of-Sale (POS) and Inventory Management Software (IMS) to Management One® for advanced data analysis and inventory planning. Management One's industry-leading analysis will provide retailers with comprehensive and accurate Merchandise Plans and Open-To-Buy (OTB) Budgets based on their day-to-day sales, purchasing, and product cost information from within the ARS software.

The ARS partnership with Management One® brings together a solid, full circle solution for retailers that want to run a more profitable retail store through compiling advanced inventory data and accurately utilizing this data to make critical decisions that directly impact the retailer's bottom line. Both companies cater to the small- to mid-sized retail operations and share a common mission to help retailers run a better retail business.

About ARS Business Solutions, LLC

ARS Business Solutions, LLC is a premier software development company that specializes in point-of-sale, inventory management, and other retail applications.
